### CUSTOM AND TWO-TONE RECYCLED PLASTIC OPTIONS

**NEW IN 2019!** A variety of our beautiful recycled plastic products can now be customized with your course logo. Our two logo options are: engraved logo filled with a one-color resin or a full-color logo decal with engraved outline. Additionally, most of these products are now available with two tones of recycled lumber to complement the aesthetic of your course. Look for the icon below to find products that can be ordered with a custom logo or in two-tone lumber. Call Miltona to learn more about custom logo options.

## BRYAN

I've been 23 years in this crazy industry, the last 13 as superintendent. At Hillsview Golf Course we say teamwork gives us the strength to stay on course. Our biggest challenges are weather, irrigation management, plant health, grubs, and weeds.

To me, Miltona has always been an innovator in golf tools. With greens that were built in the 1960s, we depend on their cup auger for cutting after heavy rains. We consistently use their Hex-Plugger™ and Quick Seed™ for quality repairs. We also recently purchased Miltona recycled benches, club washers, and markers for our driving range and it was a great improvement both functionally and visually.

No cup holder shown.

### FOLDING BAG STANDS

Easy mobility allows effortless range placement. Folds for stacking or storage. Each bag stand includes two alignment sticks that sit in two pre-drilled holes. Available with or without cup holders. Custom logo options available.

## DOUG

I've been a superintendent for 40 years—working with Mother Nature, and making constant adjustments for our golfers. Dakota Dunes has seven miles of continuous cart path with no parallel holes and built-in nature corridors. It's designed as a live-work-play community so cultivation and traffic management are keys to minimize excess golfing pressure.

That's why, when we need something, we need it fast. Recently, we ordered new flags from Miltona; once for an event and once for everyday play. It was seamless—one call, a couple proof approvals and done. Same with maintenance parts. Miltona has been just the partner we need.

Combine the HiO, Cup Auger and Depth Ring for best hole-cutting.

#### TECH TIP

The Miltona system of cutting cups will result in consistent, precise cup depth every time. Place a depth ring on your cutting shell at 6 7/8". Set the Cup Auger™ collar at the regulation depth of 7". Cut a new hole to the depth of the ring. Use the Cup Auger™ to perfectly finish the hole. When your cup is set it will rest exactly at the required depth.

Cutting Blade

#### CUP AUGER™

Take the next step in cup changing. The Cup Auger is for those who want to go above and beyond the ordinary. Using this tool is the best way to achieve consistent cup depth on every green, no matter who is doing the job. It's as easy as 1-2-3!

1. Cut the new hole with any cup cutter.
2. Insert the Cup Auger and turn until collar rests on turf.
3. Remove Cup Auger and reuse removed soil.

**655661** Cup Auger

#### CENTER SET CUP SETTER

- Help eliminate cracked and damaged edges of your cups
- Will not scratch or mark painted cups
- Center rod can be adjusted to accurately set cups at the precise depth

### DEW DRAGGIN'

Miltona's Dew Draggin' fine-tunes your course for events and early morning golfers by removing dew and dispersing grass cuttings, all while reducing labor, money and time! Dew removal is also proven to be one of the best ways to help reduce turf disease. An average-sized, 18-hole course can be covered in just 60-90 minutes. The rugged 1 $\frac{1}{8}$ " polypropylene drag rope follows ground contours and the drag harness attaches to any maintenance vehicle. Harness lines let the 25' (7.6 m) wide Dew Draggin' maneuver around obstacles and provide dramatically improved results when mowing without buckets. And at just 30 lb (13.6 kg), the Dew Draggin' can easily be pulled by hand over delicate greens.

**TECH TIP**

Use the model 510218 Miltona Sod Stripper™ with its 2" deep cut blade for projects requiring a large number of plugs. First use the Sod Stripper™ to undercut the root mass of your nursery green turf. Next, use the model 502107 Hex-Plugger™ to remove 2" plugs from the undercut area. This will save time by eliminating the need to trowel cut each plug.

Bonus: Trowel included for uniform plug depth.

Replace damaged turf on greens with 1½" model.

### PLUG STACKER™

- Cut and stack 2" deep plugs
- Available in 1½", 2" and 3" diameter models
- Holds up to 12 plugs
- Solid steel construction with hardened blade to maintain sharpness and durability
- Also great for re-establishing turf species from plug

**DONNACHA**

I've been in the golf industry for 28 years. I started part-time during high school and have been a superintendent for the last 18 years at Alexandria Golf Club. We're known for our fine turf and rolling terrain. And of course the seventh green in the shape of Minnesota. It's quirky and golfers love it. Aside from weather, I'd say our biggest challenge has been hiring skilled personnel for seasonal positions.

With our long northern winters, summer gets crazy. Ball marks are the first indicator of wear and use. To speed ball mark recovery without adjusting fertility we use the Greens Bullet and the Quick-Fill Ball Mark Eraser. Each operator repairs 20 to 30 marks per green before mowing— instant results, and it saves on a lot of bending over. The Quick-Fill is a difference maker for us. Thanks, Miltona.
