

A golfer in a white shirt and cap is captured in the middle of a golf swing on a green field under a clear blue sky. The golfer is holding a driver, and the club head is visible in the air. The background shows a line of trees and a clear horizon.

RANGE SERVANT[®]

– THE RIGHT PARTNER FOR YOU –

Driving Range Equipment

Edition 34

Range Servant

– Established in 1983

Range Servant was founded in 1983, in Sweden by Jordan Knez. He took his golfing enthusiasm and combined it with his technical knowledge from the packaging industry. The result was the first Range Servant Ball Dispenser and since then he has developed many high quality golf range products.

After more than twenty five years in business Range Servant has obtained recognition for its high quality products with strong reliability and excellent customer service through experience and technical knowledge. Range Servant's mission statement states: "The bond we have with our customers is deeply important to us. We continuously work to drive our design and product development engine, so that we always can meet our customers needs. With help from our customers we receive valuable feedback from testing our new products, so that we can ensure that we only deliver products with the highest possible quality and reliability. Construction materials and assembly components are tested thoroughly. Our goal is always to deliver a product that is not only innovative, but ingeniously simple and ready to perform at highest level."

With long experience in the golf industry, Range Servant has successfully expanded its market shares and is today the leading supplier of high quality ball management systems. In 1991 Range Servant opened a subsidiary company in North America and is also represented by distributors all over the world. Range Servant is an active participant in the golf community and member of several industry organizations.

PUT THE GOLF BALL IN PLACE

It is at the driving range the foundation for success is laid. Rational training combined with professional support leads to better golfers. A good golf driving range offers the best preconditions for all golfers, both during the training session and as a warm-up for that regular game with friends. To quickly receive a basket of good clean range balls, take a few steps to the range mat or walk up to an automatic Tee-Up and start swinging the golf club, that is the way a good driving range should work. When golfers, through efficient training achieves success, the interest increases and more golfers will find their way to the driving range to improve their game, which leads to a higher turn-over for you as a driving range operator.

Driving Range Equipment

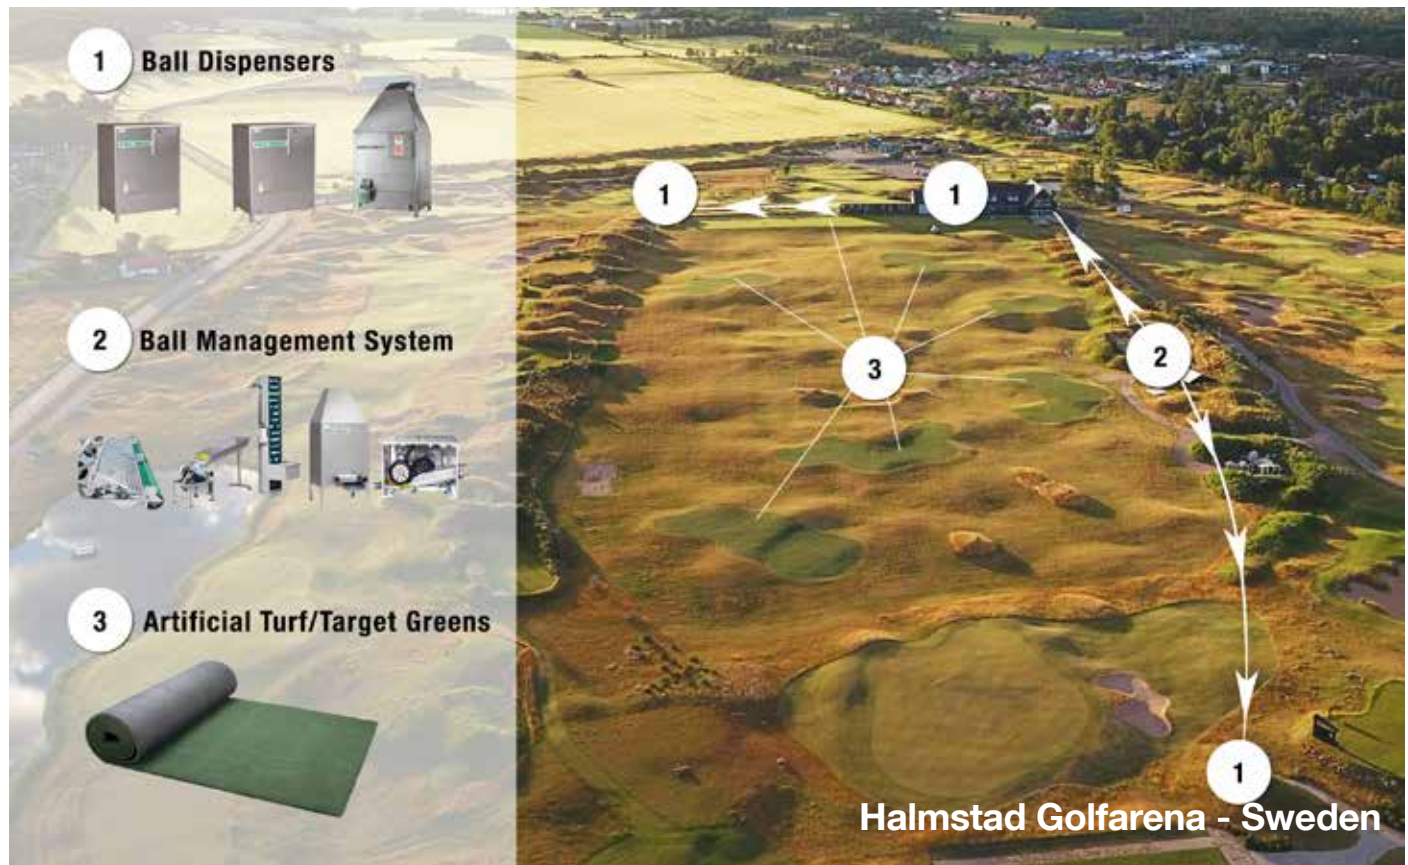

Halmstad Golfklubb - Sweden

Develop an efficient golf range with Range Servant

With our Ball Management System concept, every range operator is able to develop a cost efficient and easy-to-operate driving range. Through automation of the driving range and through sophisticated IT-Solutions a Ball Management System releases both time and resources to improve core business and customer relations.

Comprehending the specific requirements for designing and operating a golf range, we are able to customize our Ball Management System to suit both the small country club and the large commercial range. We provide solutions that improve your range operations today and prepare you for the future. We have developed four technologies to help create an efficient Ball Management System for your range:

- Ditch System
- Blower System
- Multi-Storey
- IT-Solutions

Project Management

To ensure the highest performance and reliability of our ball management systems, we work according to our project model, which runs through our entire working process from quotation, design, production to the completed installation. Each project step has to pass through a grid criteria and be approved prior to proceeding to the next step in the project. Using this method we ensure that our customers are involved in each step and receives a system that fulfills their requirements.

Our relationship with the customer does not end at the point of installation, though. A one-year warranty check up is included with all our systems together with a one year contract to our support line.

RS Ball Dispenser

Flat Top Models RS-4, RS-8, RS-11, GL6, GL8, GL10

The flagship product of Range Servant is the original RS Ball Dispenser, which has proven to be the most reliable and durable in the market. The grid and cradle system, introduced in 1983, consistently delivers an exact amount of clean, counted and undamaged balls to the customer.

- 3 bucket sizes available
- Exact ball count per dispense
- Tokens, cash, cards, keys
- Stainless aluminium, galvanized
- Easy and safe to load

Since all Range Servant dispensers are modular by design, they can be expanded and upgraded to larger models or into cone top models, to meet the needs of a growing driving range. For example, an RS-8 can be expanded to an RS-12!

RS-8
WITH SOLO
AND TOKEN

GRID AND
CRADLE
SYSTEM

Strongly made and simple to maintain, all essential working parts are made in rust resistant galvanized steel and aluminium. An ingenious "grid and cradle" design sorts out damaged balls and other unwanted objects ensuring that the golfer only receives clean and undamaged balls.

GREEN LINE DISPENSERS

With the same durable and reliable dispensing mechanism, Range Servant also offers the Green Line – a powder-coated aluminium ball dispenser with an attractive green housing.

The Green Line dispensers are designed to fit smaller driving ranges and country clubs with a lower ball demand. With its' green aesthetics it looks right at home on the golf course.

AVAILABLE
IN
GREEN LINE

RS: FLAT TOP AND GREEN LINE

150 010	RS-4	with water	~ 5 200 balls	1010x550x1476 mm
180 000	RS-8	with water	~ 8 000 balls	1010x760x1476 mm
110 007	RS-11	with water	~ 11 000 balls	1250x1010x1476 mm

GLD 0001	GL 8		~ 8 000 balls	1012x760x1476 mm
GLD 0002	GL 10		~ 10 000 balls	1260x760x1476 mm

Ultima Ball Dispenser

Flat Top Models Ultima 8, Ultima 15, Ultima 16 Dual

Featuring a “single ball” dispensing mechanism that counts the balls individually, you can count on the Ultima to dispense the right amount of balls every time! Combine this with superior electronic controls and the widest selection of payment methods and you have the most flexible and reliable ball dispenser today.

- 3 bucket sizes of any ball count
- Ball count changes easily made
- Photo-sensor counts each ball
- Tokens, cash and cards
- Stainless galvanized aluminium
- Easy and safe to load

All Range Servant Flat Top machines can be loaded from the front or back. Ball counts can be changed at any time by simply turning a dial. Since our ball dispensers are modular, they can be expanded and upgraded to larger models, or into cone top models to meet the need of a growing driving range. For example, an Ultima 8 can be expanded to an Ultima 12!

Range Servant Ball Dispensers will increase ball sales, give you better cash control and reduce labour.

*Patented single ball dispensing:
25 balls, 42 balls, 75 balls, 104 balls...
Any ball count is possible with
the Ultima dispenser.*

ULTIMA 45
DUAL

HIGH-VOLUME RANGE?

If you think your range is busy, then look no further! The high volume cone-top models are designed to minimize labour and increase revenue at the same time. These models are extremely versatile and designed to be loaded with any of our renowned automation products. Whether filled by our elevator or blower, our Ball Management Systems are quiet, cost effective and space efficient.

Cone Top models are available in a single or dual outlet design. With capacities ranging from 12 000 to 43 000 our dispensers can meet the demand of any golf range.

Range Servant dual dispensers have proven their mettle at the busiest ranges in the world. With extra capacity and twice the reliability, our dual outlet dispensers will allow you peace of mind.

Quiet, cost effective and space efficient. Our dual outlet cone top models are available in two sizes: 20 000 and 43 000 ball capacity.

These dispensers should be used as a complete Ball Management System together with elevator/blower and ball washer.

ULTIMA: CONE TOP

RS Tee-Up

TEE-UP BOX

Introducing the new RS-T-Box. Our new T-Box is a great way to create an upscale experience for your customers. By storing up to 1500 golf balls at each bay, customers are able to go directly to the Bay to start a practice session. Integrated software solutions allow Range Owners to sell balls by time or quantity. Customers access balls by entering a PIN code on an easy-to-use touchscreen or by swiping their Member Card. The T-Box creates a clean and uncluttered look that your customers will appreciate.

[DIM0500 Tee Up Box Single](#)
[DIM0510 Tee Up Box Double](#)

THE RS BALL TRAY TEE-UP

The RS Ball Tray Tee-Up is an economical way to move your driving range into the 21st century! It features our standard Tee-Up mechanism, a 100 ball capacity RS Ball Tray and easy-to-use buttons to adjust tee height. Our RS Ball Tray Tee-Up is also available in a flush mount model.

[BOC0000 RS Ball Tray Tee-Up](#)

Ball Picker Light

Range Servant Light pickers are built stronger than any picker in their class. We use only thick gauge aluminium and galvanized steel to ensure that our pickers will stand up to busy ranges and tough terrain. Range Servant pickers have the highest capacities in the market. Our 3 gang pickers hold more than most 5 gang pickers. The Light Picker is available in 2, 3, 4, 5, and 6 gang configurations.

The hybrid design sets the picker gangs in a straight beam configuration. The modified front beam wheel extension, however, reduces the swing weight

of the picker when it's attached by our A-Frame to a utility cart. Both the flat aluminium cross beam and the front beam wheel extension allow for a terrain flexible ride.

- Fully rust-resistant aluminium and steel
- In-line design allows for backing
- Light weight flexible design
- No failure-prone elbow fittings
- Flotation tires for smooth stable ride
- Multiple flex-points for varied terrain
- Adaptable to any cart or vehicle
- Unique Multiflex discs

Ball Picker Light is dedicated to be operated with power driven vehicles. One basket holds 400 balls which gives the Light picker a capacity ranging from 1 600 to 4 800 balls. The A-frame is included.

Using the same technology as our larger pickers, the Manual Picker allows for easy and effective picking of smaller practice areas. It can also be used in confined areas when wet conditions make motorized picking unwise.

MULTIFLEX DISCS

PDM 0052	2 gang	Multiflex	4 baskets
PDM 0000	3 gang	Multiflex	6 baskets
PDM 0082	4 gang	Multiflex	8 baskets
PDM 0085	5 gang	Multiflex	10 baskets
PDM 0086	6 gang	Multiflex	12 baskets

PLASTIC DISCS

PEM 0001	Manual Picker	Plastic	1 basket
310 035	Manual Picker	Plastic	2 baskets

Ball Picker Heavy Duty

Range Servant Heavy Duty pickers are the only pickers truly designed to handle the exploitation at busy stand-alone driving ranges. Since our HD pickers are built to last with thick galvanized steel, they can manage heavy usage as well as rough climates and extreme weather conditions. Our pickers have the highest capacities available in the market today.

- Fully galvanized high grade steel
- In-line design allows for backing
- High capacities – 2 400, 4 000, 5 600 balls
- Greasable pillow block bearings and caster fittings
- Flotation tires for smooth stable ride
- Adaptable to any cart or vehicle
- Multiple flex points for varied terrain

Each gang has two 400 ball baskets for maximum picking capacity. Its straight beam design provides the cleanest sweep in the industry during both straight runs and turns.

IT'S IN THE DISC!

RS Multiflex discs are made of highly resilient soft plastic. The unique design protected discs are both flexible and durable and can absorb daily punishment while picking golf balls under even the most extreme conditions. They are UV protected for maximum wear.

MULTIFLEX DISCS

310 005	MIDI	3 gang	6 baskets	2 400 capacity
310 015	MAXI	5 gang	10 baskets	4 000 capacity
310 025	JUMBO	7 gang	14 baskets	5 600 capacity

RUBBER DISCS

300 000	MIDI	3 gang	6 baskets	2 400 capacity
300 010	MAXI	5 gang	10 baskets	4 000 capacity

Modular in design, the picker can be upgraded to a larger model with a simple extension kit.

Ball Washer BT-Series

Range Servant BT Ball Washers are famous worldwide for being one of the most reliable washers in the market. Manufactured with hot-dip galvanizing iron base frame, the BT washer is equipped with a powerful drive motor and only one moving part. Without any failure-prone couplings and belts the yearly maintenance is reduced to one procedure, changing the brush. Patent pending.

Range Servant BT Ball Washers take a ball-friendly approach by using fresh water pre-spray and concentrated jet-rinse to ensure clean range balls without the unnecessary use of detergents. The Range Servant BT Ball Washer comes with an 800 balls standard ball feed hopper.

XL
HOPPER

BT
1950

- Jam proof!
- No track system
- Fresh water pre-spray and rinse
- Powerful drive motors
- Fully galvanized
- 100% of brush used
- Direct drive design

BT-1950

The BT-1950 is intended for high volume ranges with a washing capacity of 26 000 balls per hour.

BT-1300

The Range Servant BT-1300 is aimed for medium size ranges with a washing capacity of 14 000 balls per hour.

Both BT Washers can work as a stand alone unit, be fed by the Soaker 4000 or be a part of a Ball Management System. If extra capacity is required a 3 000 capacity XL-Hopper is available.

BT
1000

BT-1000

The Range servant BT-1000 is aimed for medium and small size Ranges with washing capacity 18 000 balls per hour. The BT-1000 is working as a standard alone unit. The washer comes with an 700 balls standard ball feed hopper, and the water tank holds 75 litres water.

BALL WASHERS AND PRE-SOAKER

WGM 0000	Ball Washer BT-1300	14 000 balls/h
220 000	Ball Washer BT-1950	26 000 balls/h
221 400	XL-Hopper	3 000 balls
WBT0001	BT-1000	18 000 balls/h

Elevator

The RS Elevator is available in four standard lengths and can also be customized. Carrying 30 000 balls every hour, the RS Elevator can be seen at the busiest ranges all over the world.

It is constructed of rust-proof aluminum and stainless steel. With no failure prone bearings or couplings maintenance is negligible. All standard elevators comes with an automatic overfill protection system.

- 500+ balls per minute
- Aluminum and stainless construction
- Direct Drive Motor
- Custom built on request
- Automatic Overfill Protection

ELEVATOR WITH OVERFILL PROTECTOR

EGM 0001	Elevator 1.4 m (For RS Ultima 8)
410 000	Elevator 1.8 m (For RS 8/11 and flat hopper)
EHM 0001	Elevator 2.1 m (For all ball dispensers with cone top)
420 000	Elevator 2.3 m (For all hoppers with cone top)

Pre-Soaker

Designed with mud season in mind, our pre-soaker loosens deeply embedded and caked-on dirt before the balls are lifted by the elevator into the BT-1950 or BT-1300 ball washer.

- Rust proof stainless and aluminum elevator for years of rust-free functionality
- Perforated belt design keeps water in the bin and the balls on the belt
- Speed control belt drive adjustable to feed any ball washer
- Removable interior grid system allows for easy maintenance and cleaning
- Durable Polymer, 4 000 ball capacity bin

RANGE SERVANT

BARCODE PAYMENT AND CARD READING SYSTEM

Installing Select Lite means your ball dispenser will have the new Range Servant Barcode Payment and card reading system, so here's no need for reading small code on the receipts, no need for customers to punch in codes, and no risk of their getting the code wrong! No keypad means no moving parts, so you get great reliability. The receipts can be configured for any number of balls.

THE MIFARE® CONTACTLESS RFID SYSTEM

Select Lite also comes with the market-leading Mifare proximity card reader, and that means you can set up customer loyalty programmes using unique proximity cards that can't be copied, and which can function in any environment. And proximity cards are far more reliable than other payment systems.

FEATURES INCLUDE:

- Card Management
- Top Up

Requirements

- RS Ball Dispenser
- Ultima Ball Dispenser

Operations

- Maintenance Management
- Alerts
- Statistics
- Reports

Backup

- Restore
- Data Export

NAYAX

The Visa/Mastercard solution is a direct response to customer requests and offers several great advantages. With the very latest Chip technology we can offer the greatest possible security. The robust construction is applicable for outdoor use. With this solution the transaction processing is immediate and it offers a membership top-up facility. New for 2018 – Nayax accepts Apple Pay and Nayax Cards RS:

- Top up the card with the desired amount.
- Program the card with “free buckets” – optional limit withdrawals per day / month.
- Provides purchase statistics.
- Unlimited refill.
- Easy to transfer balance from a lost card to a new one – and to block the lost one.

TOKENS

Range Servant has a large selection of tokens for use in mechanical and electronic token acceptors. The tokens are nickelplated but also available in brass. Tokens are supplied in box of 500 tokens. All tokens are manufactured by Range Servant.

TOKEN TIMER

The Track Tee, Bay Heaters and more future devices can work on a timer by installing a our Token Timer. In that way you can re-use the same tokens used for your Ball Dispenser as payment for other services.

COINS

Up to six different coins can be used with the electronic coin acceptor. A simple mechanical coin acceptor is also available designed to accept one specific coin or token.

Golf Course Equipment

Trolley

TROLLEY I

Our deluxe rental model with a foldable third wheel.

An optional advertising sign and storage basket are available. The soft grip is easy to take off and offers unmatched comfort on the course. Adjustable bag brackets deliver a perfect fit for all bag sizes. The advertising option delivers an opportunity to cut costs when upgrading your rental fleet.

Z00001

Trolley Station

An easy to operate Trolley Station: The customer holds the members/payment card in front of the reader which charges a rental fee/deposit and opens the barrier for a trolley to be easily removed from the station. When the trolley is taken back to the station, the customer holds the card in front of the reader again and the barrier opens to enable the customer to slide in the trolley back with the rest. If a deposit was taken the customer will have it refunded to the card. Functions with Nayax credit card or tokens.

- Material: The station is complete stain less steel.
- Industry standard electronics (Siemens PLC, etc.)

Z10001 Trolley station for 10 Trolleys

Z10002 Trolley station for 20 Trolleys

Range Mats

TEACHING MAT

610779

- One of the finest teaching aids in the Industry!
- Sewn-in teaching lines of colored grass
- Turf made of nylon 6 for comfortable play
- Four tee-holes
- Mat size: 150 x 150 cm
- Weight: 22 kg

RS RANGE MAT

610792

- Flexible and comfortable
- Nylon pile heat bonded with PU glue for extra strong adhesion
- 15 mm NBR foam base for great shock absorption.
- Extremely durable.
- 5 year Non-curl guarantee
- Playing mat size 150 x 150 cm
- Comes 4 slits and 8 holes.

TEE DIVIDER COATED

OTA0000

Set it and forget it. Our Heavy Duty dividers are built to last. They are rubber coated and have a tapered mesh design that ensures that balls are quietly and safely directed out of harms way.

CLASSIC RANGE MAT

610782

- The 20 mm rubber granulate airtastic backing has a combination of air and elasticity for improved energy and shock absorption for comfortable play.
- The turf is heat-bonded to the base, therefore preventing separation.
- No more bouncing of clubs as the closed air chambers provide energy resitition for maximum comfort
- Bottom layer designed to decrease slide and increase stability
- Top layer manufactured with nylon 6.6 pile for long life
- Playing mat size 150 x 150 cm
- Mat size: 170 x 170 cm
- Weight: 50 kg

CLASSIC AIRLASTIC FRAME

610784

- 20 mm rubber granulate airtastic base has a combination of air and elasticity for improved shock absorption for comfortable play.
- Combine the looks of the Classic with the economical features of the reusable frame
- Will hold any 150 x 150 cm range mat (mat not included)
- Outer size 170 x 170 cm, weight 50 kg

MATKEEPER

610783

The Matkeeper offers the perfect inexpensive way to finish your driving range mat.

- Made from highly durable rubber
- Drainage holes in the base to prevent the mat sitting in water
- Prevents lighter-weights mats from moving in the bay
- Will hold any 150 x 150 cm range mat (not included)
- Outer size: 156 x 156 cm
- Weight: 27 kg

Driving Range Balls

NASSAU RANGE BALLS

Nassau manufactures approximately 40 million different balls every year to Taylor Made and they are known for their world class range and game balls. Range Servant and Nassau have together developed a range ball you do not want to miss!

Highlights

- Nassau Range Balls have excellent durability
- The Nassau range ball feels like a real tour ball.
- As for the spin rate, the balls are basically identical to a tour ball.
- Perfect for rough and cool climates.

109840 1-piece ball, compression 80. Travel distance ~ 225 m

109841 2-piece ball, compression 90. Travel distance ~ 250 m

NIGHT SPORTS LIGHT-UP RANGE BALLS

- It contains a bright LED light that stays active upon impact for 8 minutes.
- It is a 80 compression Multilayer ball with a surlyn cover.
- The balls lights up on impact and re-triggers with every hit.
- It has an afterglow effect very similar to what you have on your watch, so if you don't manage to get to your ball within 8 minutes, you can still see it glowing.
- It is the official width and size; and plays like a regular golf ball.

Roll-in

Roll-in is not only fast but also gentle, collecting balls without damaging quality turf surfaces. Working in all conditions, the Roll-in Pro Collector is a perfect alternative to automated collectors when the ground becomes too wet. With 2 different sizes, Roll-in provides a collection system for the professional and practice enthusiast alike.

ROLL-IN

OTA0027 Roll-in BagBuddy

- Hold and collect 45 golf balls.
- Relieve your back.
- Take the hassle out of your practice!

OTA0028 Roll-in Pro Collector

- Roll-in collects in all conditions without harming fairway and putting green surfaces.
- Collects 80 golf balls.
- Empties 80 balls into a collector in a second.
- Gentle on turf.
- 5 x faster than hand picking.

Rubber Tees

Training Mirror

TRAINING
MIRROR

A great teaching tool for the tee-line!

OTA0039

Adjustable Golf Tee

A tee that adjusts to the desired height of your choice and remains there after repeated shots. The design consists of 3 polyurethane pieces, a base which is inserted under and thru a commercial grass mat, and two adjustable units that slide like a telescope.

Just push and pull to the exact height you desire as you would on the golf course. There are no slots or grooves on the inside or outside of the tee, so it slides smoothly to the exact height you need.

- Minimum Height: 4.45 cm / 1.750 inches
- Maximum Height: 8.57 cm / 3.375 inches
- Height of Base Unit: 3.50 cm / 1.375 inches
- Ball Holder: Same as standard wooden tee
- Outside Surface: Smooth and tapered
- Material: Top-grade polyurethane

Support & Services

By managing and maintaining your equipment you'll keep the driving range down time low. Low down time saves money and prevents angry customers. It does not matter if you have a small driving range on the country side or if you have a big ball management system on multiple floors with an IT based payment system. Range Servant can provide the support you need for mechanical or software issues. Professional instant support and service can give your business happier and more satisfied customers. Range Servant can help you by creating a customized maintenance service interval that fits your equipment.

Why service & Support agreement?

- Keep the driving range down time low
- Save money and will keep your customers satisfied
- Professional and reliable support
- Extend longevity on your driving range equipment

Solo 1 License: 36 months.

BMS AGREEMENT

Includes Payment systems

Agreement terms

BMS Support:
12 months with 1 month notice.

NOW IN EVERY NEW MACHINE! CONNECTED CARE BY RANGE SERVANT

Having a constant connection to the ball dispenser ensures an overall supervision over the machine and its functionality while providing customer satisfaction by keeping track of the ball level. Connected Care will tell you when to pick balls from the range and fill up the dispenser. You can easily follow the progress of the range through the built-in calculator, which will provide information of how much each payment option you have installed generates. Connected Care will make sure your dispenser operates longer and better by keeping track of when it is time to give the dispenser a service check-up.

Why Connected Care?

- Tracking the ball level and sending a text message when it's time to pick balls.
- Displays status of use, provides information about the number of dispensed balls and on the performance of all payment methods.
- Signals when it's time service the dispenser.
- Easy installation, connected via a regular sim card.
- Free phone support.

"We have worked with Range Servant for many years and the introduction of Protracer has resulted in taking our range to the next level. It continues to attract new customers without detracting from our core business and subsequently enhanced the experience of all users."

Nigel Potter
 Golf & Services Manager
 Silvermere Golf and Leisure Ltd

"For over 12 years Range Servant is a more than reliable partner to us. With their outstanding service and the high quality products they provide we were able to turn our Driving Range into a profit center and make it the most frequented practice ground in the region."

Johannes Fülöp
 Golfcourse owner
 Golf & More, Duisburg, Germany
